WARRANTY

Boreart offers a 3-year limited warranty on all its panels. For more details on the limited warranty, please contact Boreart.

USE & STORAGE

Wood products are hygroscopic by nature and must be installed flat and maintained in a building with a controlled environment. The temperature must be maintained between 15° and 30°C. Relative humidity must be maintained between 25% and 55%.

The advice and recommendations are purely advisory.

Handling and storage - panels must be stored in such a way as to protect them from moisture and direct sunlight. Panels should preferably be stored face to face or with the decorative side facing up, flat, completely horizontal, and level.

When handling or moving panel, it is important that the sheets are lifted above the adjacent sheets to avoid damage that may occur if the sheets are pulled or slid against each other. For larger formats, it is recommended that arched sheets be carried along the longitudinal axis to prevent sagging. Individual sheets can also be rolled up for easier handling.

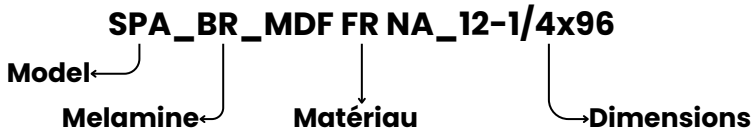
Failure to comply with one or more of the above conditions will void the Boreart Architectural Products warranty.

Large orders of Boreart products are packaged and shipped in wooden crates and/or on 4'x4' wooden pallets.

HOW TO ORDER

To order a product, please write to info@boreart.ca using the following template to ensure maximum accuracy.

The first characters indicate the model code, followed by the melamine code, the panel material, the desired dimensions, and the last letters represent the full color of the felt and its thickness.



Model	Melamine		Material		Dimensions
Saint-Paul : SPA	Natural :	NA	Natural MDF :	MDF NA	12-1/4x96
	Mist :	BR	Black MDF :	MDF NO	
	Amber :	AM	Natural FR MDF :	MDF FR NA	
	Torrefied :	TO	Natural MR MDF :	MDF MR NA	
	Charcoal :	CH			

*Since our panels are custom-made, they are also available in other colors and sizes to meet more specific needs. For any custom orders, please contact us by email or phone.
