

Boreart La Fontaine Series

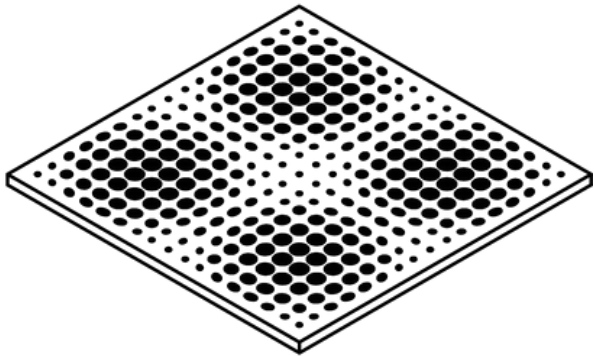

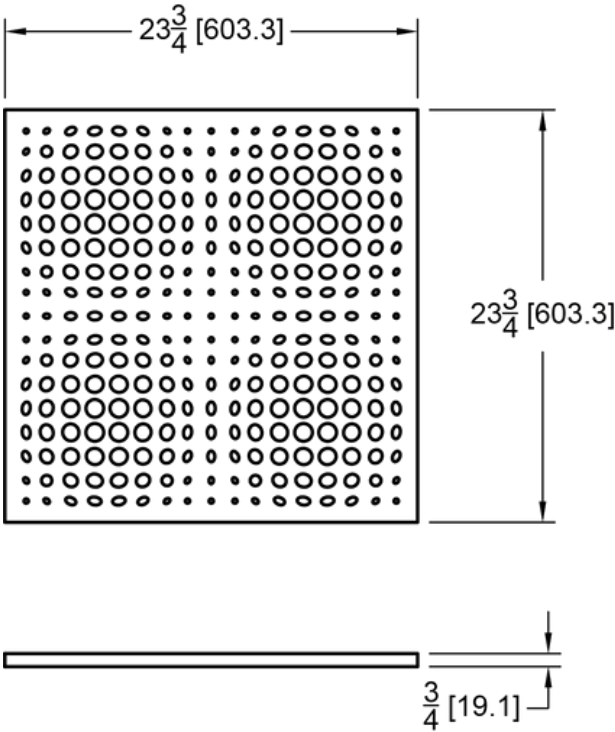

Combining acoustic performance and architectural design, the La Fontaine Series offers high-end soundproofing panels designed for interior walls and ceilings. Thanks to their sound absorption capacity, they eliminate reverberation and ensure optimal acoustic comfort. Easy to install, these panels are composed of a high-quality real wood veneer laminated onto natural or black MDF for an elegant and durable finish.

CHARACTERISTICS

Type	Boréart La Fontaine Series (acoustic option)
Melamine	Two (2) standard melamines, White Oak and Black Walnut – other melamines available upon request
Nominal panel size	24" x 24" 24" x 48"

WARRANTY

Boreart offers a 5-year warranty on all its panels. For more details on the limited warranty, please contact Boreart.

SHIPPING

Boreart products are packaged and shipped in wooden crates and/or on 4' x4' wooden pallets.

USE & STORAGE

Wood products are hygroscopic by nature and must be installed flat and maintained in a building with a controlled environment. The temperature must be maintained between 15° and 30°C. Relative humidity must be maintained between 25% and 55%.

The advice and recommendations are purely advisory.

Handling and storage - melamine sheets must be stored in such a way as to protect them from moisture and direct sunlight. Melamine sheets should preferably be stored face to face or with the decorative side facing up, flat, completely horizontal, and level.

When handling or moving melamine, it is important that the sheets are lifted above the adjacent sheets to avoid damage that may occur if the sheets are pulled or slid against each other. For larger formats, it is recommended that arched sheets be carried along the longitudinal axis to prevent sagging. Individual sheets can also be rolled up for easier handling.

Failure to comply with one or more of the above conditions will void the Boréart Architectural Products warranty.

HOW TO ORDER

To order a product, please write to **info@boreart.ca** using the following template to ensure maximum accuracy.

The first three characters are the model code, followed by the melamine code, the desired dimensions, the color of the felt as a whole, and the last letters represent the thickness of the felt.

Pattern

La Fontaine : LAF

Colors

See page 3 for the 33 felt color choices.
